APRIL 2022

About Us

Our Roots: In 2014, we knew that we wanted to make a difference in our community. Driven by environmental stewardship, we melded our backgrounds in sustainability, policy, community development, sales, and restaurant management into Impact Earth. In July 2014, we developed our very first zero waste service at an event in Ithaca, NY. Fast forward to today, Impact Earth now serves the greater Rochester and Finger Lakes Region as the one stop shop for zero waste services and products. Together, we can create our sustainable future.

Our Vision: Our vision is to build a future where communities thrive within a new circular economic model where all people, resources, and the planet are valued.

Our Mission: Our Mission is to reduce single-use consumption and divert materials from the landfill through: education, access to products and services, and creation of policy and processes.

Our Products

Our packaging products complement other Impact Earth products and services to keep single use products out of the landfill. According to the EPA, over 26 million tons of petroleum-based plastic ends up in U.S. landfills alone each year. To help combat this issue, all of the products that we offer can be composted using our Impact Earth Composting service!

500/case
\$34.49

OTHER PRODUCTS AND SERVICES

Composting Services

Our service is a simple, cost-effective way to reduce your impact on the environment by diverting food scraps and other compostable products from the landfill.

Our process is simple- All customers receive a compost bin that is swapped out on a designated schedule. We bring your organic materials to a farm to be composted. Once a year, our curbside and commercial customers receive compost back for use in their gardens!

Zero Waste Lifestyle Products

We carry a full line of zero waste lifestyle products. We are both creators and supporters of other mission-driven organizations.

Environmental Education

We are set up to train and develop environmental change makers in our community! We are focused on early education, household habits, supporting conscious communities, and building a circular economy.

How we accomplish these goals: Hosting Lunch & Learn workshops, Hosting high school workshops and conferences, Offering online content to Patreon members for home and lifestyle, Hosting Eventbrite classes on environmental issues and local topics.
